During the past 30 days, how often did you...

Feel nervous?

Would you say none of the time, a little of the time, some of the time, most of the time, or all of the time?

This variable is a component of the PCG K-6 Distress Scale (H21K6_14). The scale is the sum of the non-missing values of these 6 items. Each item is scored 1-5 where higher scores are indicative of greater distress. All 6 items must be non-missing for the scale to be generated.

(Before I begin, I want you to know that this interview is completely voluntary. If we should come to any questions you don't want to answer, just let me know and I will go on to the next question. Your answers will be kept confidential. The interview will take about 75 minutes, depending on the number of eligible children in your family. In addition, we mailed time diaries for you to record your child's/children's activities during one weekday and one weekend day. We are offering you \$[payment] in appreciation for your time and effort answering our questions and an additional \$[TDpayment] for your child's set of completed time diaries/for each set of time diaries completed for your children. Do you have any questions for me?)

We would like to know about [CHILD NAME]'s/any children's biological or adoptive parents who are not living here.
