If no birth dates contained missing data, then each child was ordered by 1 for first birth, etc. If one or more birth dates of children are not known, then missing data are assigned to those children's records. This may or may not mean that other children's birth orders are also unknown. See CAH85_23 Introduction: Section IV for details.

 OS4. State or Country in which Child was Born

Questions about the child's birthplace were added to the birth history sequence beginning in 1997. The birthplace of a biological child was asked only if the child was born since January 1 of the prior wave, but the birthplace of an adopted child was asked regardless of birth year. This variable uses the FIPS state code to indicate the state in which the child was born. The county or specific foreign country was also coded but is considered a sensitive data item by the PSID. Access to sensitive data must be obtained by special request and a confidential data use contract.

This variable refers to the time when the child either established his or her own household or died. Note that this variable, as well as CAH25 above, refers only to the child's death date if the information was collected after the 1985 interview; the question about the date on which the child set up his or her own household was dropped.

CAH27 "OS7. HISPANICITY" NUM(1.0)

OS7. Hispanicity of Child

Questions about Hispanicity were asked beginning in 2005. Data records in the cumulative file before 2005 contain values of 8 for Hispanicity.

Changes in the RACE (CAH28-CAH30) code frame in the 2007 interviewing wave prompted a change in this code frame for 2007 and subsequent waves. See CAH85_23 Introduction: Section I: OVERVIEW OF THE 1985-2023 CHILDBIRTH AND ADOPTION HISTORY FILE for a complete explanation of the changes in 2007.

Note that code "6" is new beginning in 2007. It was created in order to preserve information collected 1997 through 2005 in RACE code "5. Latin origin or descent". Those cases have had RACE recoded to "7. Other", and HISPANICITY has been recoded to "6. Latin origin or descent, no further information".

OS8. Race of Child, 1st Mention

Questions about race were asked beginning in 1997. Data records collected prior to this time contain values of 8.

Changes were made in the Race code frame beginning in the 2007 interviewing wave. See CAH85_23 Introduction: SECTION I: OVERVIEW OF THE 1985-2023 CHILDBIRTH AND ADOPTION HISTORY FILE for a complete explanation of these changes, but briefly:

- (1) In order to preserve the Hispanicity information previously collected and documented in the 1997 through 2005 Race code "5", in 2007 and subsequent years see Race code "7" and HISPANICITY (CAH27) variable code "6";*
- (2) in 2007 and subsequently, Hawaiians or Pacific Islanders are Race code "5", not code "4".*

Users should also note that beginning with the 2013 questionnaire, Native Hawaiian and Pacific Islander categories were separated, however in the cumulative file we have combined those categories into code "5" to maintain consistency with historical records.
