Codebook

Number of Variables 589

Wednesday May 31 2017 4:33 PM

V2401 "RELEASE NUMBER"

Release Number

December, 2013: Three-digit occupation and industry variables have been added to this file, V2582_A, V2583_A for Heads, and V2672_A, V2673_A for Wives/"Wives". These variables were previously available as HDOCC72, HDIND72, and WFOCC72, WFIND72. On release 3, we are suppressing some additional variables to protect the anonymity of our respondents.

Count	00	Value/Range	Code Value/Range Text
-	-	2	Release number 2 May 2008
5,060	100.00	3	Release number 3 - December 2013

V2402 "1972 INT #"

1972 Interview Number

Count	%	Value/Range	Code Value/Range Text
5,060	100.00	1 - 5,060	Actual 1972 interview number

V2403 "STATE NOW"

State of Residence at time of 1972 Interview
Please refer to PSID state codes here
http://psidonline.isr.umich.edu/data/Documentation/PSIDStateCodes.pdf

_	Count	00	Value/Range	Code Value/Range Text
	5,046	99.72	1 - 51	Actual state (PSID State code)
	1	.02	99	DK; NA
	13	.26	0	Inap.: U.S. territory or foreign country

V2404 "COUNTY NOW"

County of Residence at time of 1972 Interview

This variable is suppressed (filled with zeroes) in the public release file to protect the anonymity of respondents. The data are available in a separate file: FIPSCntyYEAR where Year is the corresponding Census year (i.e. FIPSCnty10 is using the 2010 Census frame). This variable is the county as per the address at the time of interview coded to the most recent version of the Census data (using FIPS county codes). This file is available to qualified users under special contractual arrangements with the PSID. For more information, contact us at PSIDhelp@umich.edu and request PSIDCountyIdentifiers restricted file.

Count	00	Value/Range	Code	Value/Range Text
5,060	100.00	0	Data	suppressed

NUM(1.0)

NUM(2.0)

V2405 "ST+CNTY NOW"

State and County of Residence at time of 1972 Interview

This variable is suppressed (filled with zeroes) in the public release file to protect the anonymity of respondents. The data are available in a separate file: FIPSCntyYEAR where Year is the corresponding Census year (i.e. FIPSCnty10 is using the 2010 Census frame). This variable is the county as per the address at the time of interview coded to the most recent version of the Census data (using FIPS county codes). This file is available to qualified users under special contractual arrangements with the PSID. For more information, contact us at PSIDhelp@umich.edu and request PSIDCountyIdentifiers restricted file.

_	Count	%	Value/Range	Code	e Value/Range Text	
	5,060	100.00	0	Data	suppressed	

V2406 "LRGST PLAC/SMSA PSU"

Size of Largest City in PSU

This variable is suppressed (filled with zeroes) in the public release file to protect the anonymity of respondents. The data are available in a separate file: FAM19YEAR_rst where Year is the corresponding Family File year (i.e. FAM1968_rst contains data for suppressed variables from the 1968 file). This file is available to qualified users under special contractual arrangements with the PSID. For more information, contact us at PSIDhelp@umich.edu and request PSIDCountyIdentifiers restricted file.

Count	010	Value/Range	Code Value/Range Text
1,963	38.79	1	SMSA: largest city 500,000 or more
1,057	20.89	2	SMSA: largest city 100,000 - 499,999
552	10.91	3	SMSA: largest city 50,000 - 99,999
310	6.13	4	Non-SMSA: largest city 25,000 - 49,999
420	8.30	5	Non-SMSA: largest city 10,000 - 24,999
747	14.76	б	Non-SMSA: largest city under 10,000
11	.22	9	NA; DU is not in continental U.S.A.

-	-	9	Nine or more

V2414 "REL-HEAD:MOVER OUT"

NUM(1.0)

NUM(1.0)

Relation to last year's Head of person(s) who moved out/died between 1971 and 1972 If more than one person moved out, the person with the highest priority was coded.

Count	olo	Value/Range	Code Value/Range Text
99	1.96	1	Previous Head
55	1.09	2	Wife
346	6.84	3	Children; step-children
21	.42	4	Sibling

19	.38	5 I	Parent
22	.43	6 (Grandchild; great grandchild
36	.71	7	In-laws and other relatives
5	.10	8 1	Nonrelative
2	.04	9 E	Husband of 1971 Head
4,455	88.04	0	Inap.: no one moved out

V2415 "72 FU COMPOSITION"

1972 Family composition

<u>Count</u>	%	Value/Range	Code Value/Range Text
4,379	86.54	1	Head and immediate family (Wife and children) only
562	11.11	2	FU contains other people related to Head
55	1.09	3	FU contains people unrelated to the Head who are included in FU because they pool everything
64	1.26	5	Other

NUM(1.0)

NUM(1.0)

NUM(4.0)

NUM(1.0)

V2416 "QUALITY OF MATCH"

Quality of match

Count	8	Value/Range	Code Value/Range Text
5,052	99.84	0	Perfect or near-perfect match
8	.16	1	Fair match
-	-	2	Poor match
-	-	5	No match

V2417 "VALUE OF CARS"

Value of cars (1972)

Count	00	Value/Range	Code Value/Range Text
3,736	73.83	1 - 9,998	Actual amount
2	.04	9,999	\$9,999 or more
1,322	26.13	0	Inap.: own no car

V2418 "ACCURACY CAR VALUE"

Accuracy of V2417 (Car Value: 1972)

Count	00	Value/Range	Code Value/Range Text
4,991	98.64	0	No assignment
40	.79	1	Minor assignment (probable errors less than \$300 or 10%)
3	.06	2	Major assignment (probable errors more than \$300 or 10%)
26	.51	4	Family has access to business vehicles

V2470 "FU WKLY FOOD STD"

Weekly Food Needs

This variable's values are based on USDA Low-Cost Plan estimates of weekly food costs, according to the table below (reproduced from Family Economics Review, June 1967), summed for the family as it was at the time of the interview.

INDIVIDUAL FOOD STANDARD (LOW COST)

\$3.90 for both males and females under age 4 \$4.60 for both males and females age 4-6
\$5.50 for both males and females age 7-9
\$6.40 for males age 10-12
\$6.30 for females age 10-12
\$7.40 for males age 13-15
\$6.90 for females age 13-15
\$8.70 for males age 16-20
\$7.20 for females age 16-20
\$7.50 for males age 21-35
\$6.50 for females age 21-35
\$6.90 for males age 36-55
\$6.30 for females age 36-55
<i>\$6.30 for males age 56 and older</i>
<i>\$5.40 for females age 56 and older</i>

This same standard has been used in previous waves. Since the table is from 1967, values are in 1967 dollars. Adjustments for inflation, etc., are left to users.

The actual weekly food needs in dollars and cents are coded here.

Count	00	Value/Range	Code Value/Range Text
5,060	100.00	5.40 - 109.60	Actual weekly food needs

NUM(6.2)

V2471 "ANNUAL NEED STD"

Annual Need Standard in 1971

This is the Orshansky-type poverty threshold, based on an annual food needs standard derived from the weekly food costs above, which is converted to an annual amount and adjusted for economies of scale by USDA rules as follows:

Single person	-	add 20%
Two persons	-	add 10%
Three persons	-	add 5%
Four persons	-	no change
Five persons	-	deduct 5%
Six or more persons	-	deduct 10%

An additional adjustment for diseconomies of small households (in rent, etc.) was made as follows for the Annual Need Standard:

4.89 times the food needs for single persons

3.7 times the food needs for two-person units

3.0 times the food needs for all other units

See note at V2470 regarding use of 1967 dollar values.

V2582_A"OCCUPATION OF HEAD72"NUM(3.0)D2. What is your main occupation? (What sort of work do you do?)D3. Tell me a little more about what you do.E6. What sort of work did you do on your last job? (What was your occupation?)F3. What kind of work did you do when you worked? (What was your occupation?)This version of occupation was coded retroactively using original PSID reports and thethree-digit 1970 Census occupation codes for a selected sample of PSID Heads andWives/"Wives":

- (a) Original sample Heads and Wives/"Wives still living by 1992 who reported main jobs in at least three waves during the period 1968-1992, with at least one of those reports prior to 1980.
- (b) Additionally, original sample Heads and Wives/"Wives" who had reported at least one main job between 1968 and 1980 but were known to have died by 1992.

The selection criteria did not include all Heads and Wives/"Wives" who had worked between 1968 and 1980. Those who were still living but had reported only one or two jobs during the period of interest were excluded, as were all nonsample Heads and Wives/"Wives". Therefore not every Head or Wife/"Wife" has data for this variable. For detailed information about the Retrospective Coding Project, please see the document, 'A Panel Study of Income Dynamics: 1968-1980 Retrospective Occupation-Industry Files Documentation', on our website.

The 3-digit industry code from 1970 Census of Population; Alphabetical Index of Industries and Occupations issued June 1971 by the U.S. Department of Commerce and the Bureau of the Census was used for this variable. Please refer to Appendix V2, Wave XIV documentation, for complete listings.

V2583_A"INDUSTRY OF HEAD72"NUM(3.0)D3a. What kind of business is that in?E6a. What kind of business was that in?F3a. What kind of business is that in?This version of industry was coded retroactively using original PSID reports and thethree-digit 1970 Census industry codes for a selectedsample of PSID Heads and Wives/"Wives":

- (a) Original sample Heads and Wives/"Wives still living by 1992 who reported main jobs in at least three waves during the period 1968-1992, with at least one of those reports prior to 1980.
- (b) Additionally, original sample Heads and Wives/"Wives" who had reported at least one main job between 1968 and 1980 but were known to have died by 1992.

The selection criteria did not include all Heads and Wives/"Wives" who had worked between 1968 and 1980. Those who were still living but had reported only one or two jobs during the period of interest were excluded, as were all nonsample Heads and Wives/"Wives". Therefore not every Head or Wife/"Wife" has data for this variable. For detailed information about the Retrospective Coding Project, please see the document, 'A Panel Study of Income Dynamics: 1968-1980 Retrospective Occupation-Industry Files Documentation', on our website.

The 3-digit industry code from 1970 Census of Population; Alphabetical Index of Industries and Occupations issued June 1971 by the U.S. Department of Commerce and the Bureau of the Census was used for this variable. Please refer to Appendix V2, Wave XIV documentation, for complete listings.

V2672_A "OCCUPATION OF WIFE

NUM(3.0)

G3. What kind of work did she do?

This version of occupation was coded retroactively using original PSID reports and the three-digit 1970 Census occupation/industry codes for a selected sample of PSID Heads and Wives/"Wives":

72"

- (a) Original sample Heads and Wives/"Wives still living by 1992 who reported main jobs in at least three waves during the period 1968-1992, with at least one of those reports prior to 1980.
- (b) Additionally, original sample Heads and Wives/"Wives" who had reported at least one main job between 1968 and 1980 but were known to have died by 1992.

The selection criteria did not include all Heads and Wives/"Wives" who had worked between 1968 and 1980. Those who were still living but had reported only one or two jobs during the period of interest were excluded, as were all nonsample Heads and Wives/"Wives". Therefore not every Head or Wife/"Wife" has data for this variable. For detailed information about the Retrospective Coding Project, please see the document, 'A Panel Study of Income Dynamics: 1968-1980 Retrospective Occupation-Industry Files Documentation', on our website.The 3-digit industry code from 1970 Census of Population; Alphabetical Index of Industries and Occupations issued June 1971 by the U.S. Department of Commerce and the Bureau of the Census was used for this variable. Please refer to Appendix V2, Wave XIV documentation, for complete listings.

177	3.50	9	NA; DK

V2766 "OPINION IMP OR LIKE"

K24. Now I'll read some statements people use to describe other people. Suppose you were to hear them. Which would you most like to hear about yourself - (his/her) opinion carries a lot of weight among people who know (him/her) or people like to live next door to (him/her)?

Count	010	Value/Range	Code Value/Range Text
2,494	49.29	1	(His/her) opinion carries a lot of weight among people who know (him/her)
2,494	49.29	5	People like to live next door to (him/her)
72	1.42	9	NA; DK

V2767 "LIKE OR DO ANYTHNG"

			d you rather hear about yourself - other people like can do anything (he/she) sets (his/her) mind on doing?
Count	olo	Value/Range	Code Value/Range Text
1,849	36.54	1	Other people like (him/her) very much
3,145	62.15	5	(He/she) can do anything (he/she) sets (his/her) mind on doing
66	1.30	9	NA; DK

V2768 "FUN OR ADVICE"

NUM(1.0)

NUM(1.0)

NUM(1.0)

NUM(1.0)

K26. Now these two. (He/She) is fun to have at a party, or people like to go to (him/her) for advice on important matters?

Count	00	Value/Range	Code Value/Range Text
1,052	20.79	1	(He/She) is fun to have at a party
3,907	77.21	5	People like to go to (him/her) for advice on important matters
101	2.00	9	NA; DK

V2769 "TEST BEHAVIOR"

K27. Now think back to when you were in school, or to some other time when you had to take tests like applying for a job or a driver's license. Try to remember how you felt at that time. When taking tests some people have an uneasy, upset feeling. When you took a test, would you say you were very upset, somewhat upset, or not upset at all?

Count	00	Value/Range	Code Value/Range Text
681	13.46	1	Very upset
2,627	51.92	3	Somewhat upset
1,691	33.42	5	Not upset at all
61	1.21	9	NA; DK

V2770 "HEART BEAT-TEST"

NUM(1.0)

K28. When working on important tests, how fast did your heart beat -- very fast, faster than normal, or about normal?

Count	%	Value/Range	Code Value/Range Text
520	10.28	1	Very fast
1,982	39.17	3	Faster than normal

2,469	48.79	5	About	normal

89 1.76 9 NA; DK

V2771 "WORRY ABT FAILING"

NUM(1.0)

K29. During tests, how much did you worry about what it would mean to fail. Would you say you worried a lot, worried some, or did not worry at all?

Count	010	Value/Range	Code Value/Range Text
1,165	23.02	1	Worried a lot
2,687	53.10	3	Worried some
1,146	22.65	5	Did not worry at all
62	1.23	9	NA; DK

V2772 "PERSPIRE DURNG TEST"

K30. When you were taking an important test, how much did you perspire -- a great deal, more than usual, or not at all?

_	Count	<u>%</u>	Value/Range	Code Value/Range Text
	553	10.93	1	A great deal
	1,816	35.89	3	More than usual
	2,559	50.57	5	Not at all
	132	2.61	9	NA; DK

V2773 "DONE WELL-KNOW MORE"

K31. Suppose you'd just taken some hard tests, and someone told you you'd done very well on them. Would you want to know more about the tests, or would you feel good about that?

Count	00	Value/Range	Code Value/Range Text
1,839	36.34	1	Want to know more about the tests
3,152	62.29	5	Would feel good about that
69	1.36	9	NA; DK

V2774 "DURING WELL-FEEL GD"

K32. Suppose you were in the middle of some important tests and someone told you that you were doing very well. Would you mostly feel good about what you had done so far or would you think mostly about the tests yet to come?

Count	00	Value/Range	Code Value/Range Text
1,405	27.77	1	Mostly feel good about what had done so far
3,567	70.49	5	Think mostly about tests yet to come

V2892 "ANNUAL FOOD STD"

NUM(4.0)

NUM(1.0)

Annual food standard

This variable is generated by multiplying the weekly food needs (V2470) by 52 and then making the following adjustments for economies of scale: add 20 percent for one person families, 10 percent for 2 person families, 5 percent for 3 person families and subtract 5 percent for 5 person families and 10 percent for families with six or more.

See note at V2470 (weekly food needs) regarding use of 1967 dollar values.

Count	00	Value/Range	Code Value/Range Text
5,060	100.00	337 - 5,129	Actual annual food standard amount

V2893 "NET Y-HSNG/FD ND"

NUM(5.2)

1971 family net real income net of cost of housing/1971 family food need standard (1971 family net real income net of cost of housing [V2890]/family food standard [V2892])

See note at V2470 (used in computing V2892) regarding use of 1967 dollar values.

Ratio of 1971 family net real income net of cost of housing to 1971 family food need standard

It is postulated that housing is a lumpy expenditure which is not proportional to family size. Income remaining after this expense may be considered to be applicable to expenses which are more nearly proportional to family size. The family food standard does not incorporate some of the economies of scale which the family need standard does, and is thus the appropriate reference standard for this income measure. However, the food standard is lower than the need standard by roughly a factor of 3, so variable 4 will have substantially greater numerical value than the other income / needs variables.

1971 hours of work by family - paid and unpaid (Excluding hours of travel to work by Head and Wife) Sum of the following variables:

V2439 Hours of work for money - HEAD V2449 Hours of work for money - WIFE OF HEAD V2455 Hours of unpaid housework - WIFE OF HEAD OR SINGLE HEAD V2457 Hours of unpaid housework - HUSBAND (if any) V2459 Hours of unpaid housework - OTHERS (other than Head or Wife of Head) V2936 Revised home production hours V2524 Hours of work for money - OTHERS

All the above component variables refer to the entire family and are for the year 1971 The hours of travel to work of Head and Wife are not included, making this variable comparable to the corresponding variable for 1967. This is not comparable to the 1968 variable since that variable did not include other's work for money.

V2936 "HOME PROD HRS(REV)"

Revised home production hours

This variable is the sum of home production hours (V2438) and an imputation of a dollar an hour for each dollar saved by growing or canning food (V2485). This imputation is not added for those whose occupation is farming in either their first or second job.

Count	%	Value/Range	Code Value/Range Text
2,081	41.13	0	Sum is zero hours
2,979	58.87	1 - 4,005	Actual number of hours

NUM(1.0)

NUM(4.0)

NUM(4.0)

NUM(1.0)

V2937 "TOTAL NONLEISR HRS"

Total nonleisure hours of the Head and Wife in 1971 Summation of the following:

V2936 Revised home production hours V2439 Head's total work hours V2441 Head's illness hours V2443 Head's unemployment hours V2447 Head's travel to work time V2449 Wife's work hours V2453 Wife's travel to work time V2455 Hours of housework done by Wife or unmarried Head V2457 Hours of housework done by husband

This variable is not comparable to the corresponding variable for 1967 since it includes travel to work time of the Head and Wife. See V2932 for nonleisure in 1971 comparable to the measure of nonleisure for 1967.

Count	00	Value/Range	Code Value/Range Text
55	1.09	0	No hours
5,000	98.81	1 - 9,911	Actual number of hours
5	.10	9,999	NA; DK

V2938 "HOUSING NBHD QULTY" 1972 housing and neighborhood quality Owns home (V2566 = 1)

Lives 5-30 miles from center of city of 50,000 or more (V2836 = 2, 3)

Single family home (V2837 = 1)

Neighborhood of single family houses (V2839 = 2)

Value per room Value = (10 x rent for non-owners) \$2000 or more (V2922 = 4 - 8)

2 or more extra rooms (V2927 = 5 - 9)

Dwelling contains running water, inside toilet and does not need extensive or major repairs (at least no evidence of above) (V2841 NE 5 and V2842 NE 5 and V2843 NE 5)

V2960 "SHORTAGE MALE LABOR"

NUM(1.0)

Whether shortage or surplus of unskilled male labor in county, August 1972

This variable is suppressed (filled with zeroes) in the public release file to protect the anonymity of respondents. The data are available in a separate file: FAM19YEAR_rst where Year is the corresponding Family File year (i.e. FAM1968_rst contains data for suppressed variables from the 1968 file). This file is available to qualified users under special contractual arrangements with the PSID. For more information, contact us at PSIDhelp@umich.edu and request PSIDCountyIdentifiers restricted file.

Count	00	Value/Range	Code Value/Range Text
45	.89	1	Many more jobs than applicants
252	4.98	2	More jobs than applicants
828	16.36	3	Most people able to find jobs
2,095	41.40	4	A number of unskilled workers unable to find jobs
1,562	30.87	5	Many unskilled workers unable to find jobs
278	5.49	9	NA

V2961 "FEMALE MARKET"

NUM(1.0)

How does the market for unskilled females compare with the market for unskilled males? August 1972

This variable is suppressed (filled with zeroes) in the public release file to protect the anonymity of respondents. The data are available in a separate file: FAM19YEAR_rst where Year is the corresponding Family File year (i.e. FAM1968_rst contains data for suppressed variables from the 1968 file). This file is available to qualified users under special contractual arrangements with the PSID. For more information, contact us at PSIDhelp@umich.edu and request PSIDCountyIdentifiers restricted file.

Count	00	Value/Range	Code Value/Range Text
596	11.78	1	Better (more women able to find jobs)

1,770	34.98	2	About the same
2,169	42.87	3	Worse (fewer women able to find jobs)
247	4.88	4	Much worse (many fewer women able to find jobs)
278	5.49	9	NA

V2962 "NONWHITE MARKET"

NUM(1.0)

How does the market for unskilled nonwhites compare with the market for whites? August 1972

This variable is suppressed (filled with zeroes) in the public release file to protect the anonymity of respondents. The data are available in a separate file: FAM19YEAR_rst where Year is the corresponding Family File year (i.e. FAM1968_rst contains data for suppressed variables from the 1968 file). This file is available to qualified users under special contractual arrangements with the PSID. For more information, contact us at PSIDhelp@umich.edu and request PSIDCountyIdentifiers restricted file.

Count		Value/Range	Code Value/Range Text
208	4.11	1	Better (more nonwhites able to find jobs)
1,971	38.95	2	About the same
1,989	39.31	3	Worse (fewer nonwhites able to find jobs)

4	.08	4	Four changes

V2978 "UNIQUE LINK TO 1968"

Unique linkage to 1968

This variable should be used as a filter for analysis using the 1968 data only. In cases where there were splitoffs so that the 1968 data appears more than once in this file, one case was randomly chosen as the unique link. This variable is not based on family composition.

Count	00	Value/Range	Code Value/Range Text
4,759	94.05	0	Unique link to 1968
220	4.35	1	Not a unique link to 1968
76	1.50	2	Wild code
5	.10	3	Wild code

V2979 "HOUSEHOLD ID # 72"

Household Identification Number

This variable was generated to simplify the clustering of multiple panel family units residing in the same households. Its values were assigned simply by selecting a 1972 ID number (V2402) with the lowest value from among the 1972 ID numbers of those families comprising each such household group. This value was used in these file positions for all of the related households. Thus, if the user sorts the data ordered by this variable, the family units within larger household groups will be adjacent to each other. Family units who did not share their households with any other family unit or shared only with non-panel family units were given their own values for V2402.

Count	%	Value/Range	Code Value/Range	Text

V2981 "CENSUS NEEDS STANDARD-1971"

Annual Needs Standard for the 1971 Family--CENSUS VERSION

This poverty threshold was taken from Census Bureau's website, http://www.census.gov/hhes/www/poverty/data/threshld/index.html We have used the table entitled 'Income Thresholds at the Poverty Level by Sex of Head, Size of Family, and Number of Related Children Under 18 Years Old, by Farm-Nonfarm Residence.' We used Non-Farm Residence tabulations.

The threshold values are based on sex of Head, family size, the number of persons in the family under age 18, and the age of the householder. Due to some of the limitations of our extant files, we were unable to generate the number of months for those individuals who moved out of multiple families in the same wave. Otherwise the calculation of needs is similar to that described in Section I, Part 5, of guide to the 1993 PSID data, 93GUIDE.PDF.
