V3004 "COUNTY NOW"

NUM(1.0)

County of Residence at time of 1973 Interview

This variable is suppressed (filled with zeroes) in the public release file to protect the anonymity of respondents. The data are available in a separate file: FIPSCntyYEAR where Year is the corresponding Census year (i.e. FIPSCnty10 is using the 2010 Census frame). This variable is the county as per the address at the time of interview coded to the most recent version of the Census data (using FIPS county codes). This file is available to qualified users under special contractual arrangements with the PSID. For more information, contact us at PSIDhelp@umich.edu and request PSIDCountyIdentifiers restricted file.

V3019 "WEEKLY FOOD ND"

NUM(5.1)

Weekly Food Needs

This variable's values are based on USDA Low-Cost Plan estimates of weekly food costs, according to the table below (reproduced from Family Economics Review, June 1967), summed for the family as it was at the time of the interview.

INDIVIDUAL FOOD STANDARD (LOW COST)

\$5.40 for females age 56 and older

\$3.90 for both males and females under age 4
\$4.60 for both males and females age 4-6
\$5.50 for both males and females age 7-9
\$6.40 for males age 10-12
\$6.30 for females age 10-12
\$7.40 for males age 13-15
\$6.90 for females age 13-15
\$8.70 for males age 16-20
\$7.20 for females age 16-20
\$7.50 for males age 21-35
\$6.50 for females age 21-35
\$6.90 for males age 36-55
\$6.30 for females age 36-55
\$6.30 for males age 56 and older

This same standard has been used in previous waves. Since the table is from 1967, values are in 1967 dollars. Adjustments for inflation, etc., are left to users.

The actual weekly food needs in dollars and cents are coded here.

Count	<u> </u>	Value/Range	Code Value/Range Text
5,285	100.00	5.4 - 110.0	Actual weekly food needs

V3020 "ANN NEED STD"

NUM(5.0)

Annual Need Standard in 1972

This is the Orshansky-type poverty threshold, based on an annual food needs standard derived from the weekly food costs above, which is converted to an annual amount and adjusted for economies of scale by USDA rules as follows:

Single person - add 20%
Two persons - add 10%
Three persons - add 5%
Four persons - no change
Five persons - deduct 5%
Six or more persons - deduct 10%

An additional adjustment for diseconomies of small households (in rent, etc.) was made as follows for the Annual Need Standard:

- 4.89 times the food needs for single persons
- 3.70 times the food needs for two person units
- 3.00 times the food needs for all other units

Note that the computation of this variable makes use of the table in V3019, which is in 1967 dollars.

- F3. What sort of work did you do when you worked? (What was your occupation?) This version of occupation was coded retroactively using original PSID reports and the three-digit 1970 Census occupation codes for a selected sample of PSID Heads and Wives/"Wives":
- (a) Original sample Heads and Wives/"Wives still living by 1992 who reported main jobs in at least three waves during the period 1968-1992, with at least one of those reports prior to 1980.
- (b) Additionally, original sample Heads and Wives/"Wives" who had reported at least one main job between 1968 and 1980 but were known to have died by 1992.

The selection criteria did not include all Heads and Wives/"Wives" who had worked between 1968 and 1980. Those who were still living but had reported only one or two jobs during the period of interest were excluded, as were all nonsample Heads and Wives/"Wives". Therefore not every Head or Wife/"Wife" has data for this variable. V3183 A "OCCUPATION OF WIFE 73"

NUM(3.0)

G3. What kind of work did she do?

This version of occupation was coded retroactively using original PSID reports and the three-digit 1970 Census occupation codes for a selected sample of PSID Heads and Wives/"Wives":

- (a) Original sample Heads and Wives/"Wives still living by 1992 who reported main jobs in at least three waves during the period 1968-1992, with at least one of those reports prior to 1980.
- (b) Additionally, original sample Heads and Wives/"Wives" who had reported at least one main job between 1968 and 1980 but were known to have died by 1992.

The selection criteria did not include all Heads and Wives/"Wives" who had worked between 1968 and 1980. Those who were still living but had reported only one or two jobs during the period of interest were excluded, as were all nonsample Heads and Wives/"Wives". Therefore not every Head or Wife/"Wife" has data for this variable. For detailed information about the Retrospective Coding Project, please see the document, 'A Panel Study of Income Dynamics: 1968-1980 Retrospective Occupation-Industry Files Documentation', on our website.

The 3-digit industry code from 1970 Census of Population; Alphabetical Index of Industries and Occupations issued June 1971 by the U.S. Department of Commerce and the Bureau of the Census was used for this variable. Please refer to Appendix V2, Wave XIV documentation, for complete listings.

V3272 "MONEY Y/NEEDS"

NUM(5.2)

Total 1972 Family Money Income/Needs (1973)

Total 1972 family money income (V3256) divided by 1972 family needs (V3020). This ratio is multiplied by 1.25 for farmers (those coded 8 in V3115 or V3153) to adjust for lower food costs.

See note at V3020 regarding use of 1967 dollar values.

This is the only measure of income to needs on this tape which makes this adjustment for farmers.

V3274 "ANNUAL FOOD STD"

NUM(4.0)

Annual Food Standard

This variable is generated by multiplying the weekly food needs (V3019) by 52 and then making the following adjustments for economies of scale:

add 20 percent for one person families,

10 percent for 2 person families,

5 percent for 3 person families and

subtract 5 percent for 5 person families and 10 percent for families with six or more

See note at V3019 (weekly food needs) regarding use of 1967 dollar values in that variable.

V3310 "HOUSEHOLD ID # 73"

NUM(4.0)

Household Identification Number

This variable was generated to simplify the clustering of multiple panel family units residing in the same households. Its values were assigned simply by selecting a 1973 ID number (V3002) with the lowest value from among the 1973 ID numbers of those families comprising each such household group. This value was used in these file positions for all of the related households. Thus, if the user sorts the data ordered by this variable, the family units within larger household groups will be adjacent to each other. Family units who did not share their households with any other family unit or shared only with non-panel family units were given their own values for V3002.

V3312 "CENSUS NEEDS STANDARD-1972"

NUM(5.0)

Annual Needs Standard for the 1972 Family--CENSUS VERSION

This poverty threshold was taken from Census Bureau's website,

http://www.census.gov/hhes/www/poverty/data/threshld/index.html We have used the table entitled 'Income Thresholds at the Poverty Level by Sex of Head, Size of Family, and Number of Related Children Under 18 Years Old, by Farm-Nonfarm Residence.' We used Non-Farm Residence tabulations.

The threshold values are based on sex of Head, family size, the number of persons in the family under age 18, and the age of the householder. Due to some of the limitations of our extant files, we were unable to generate the number of months for those individuals who moved out of multiple families in the same wave. Otherwise the calculation of needs is similar to that described in Section I, Part 5, of guide to the 1993 PSID data, 93GUIDE.PDF.
