V8251 "1982 WEEKLY FOOD NEEDS" Weekly Food Needs

This variable's values are based on USDA Low-Cost Plan estimates of weekly food costs, according to the table below (reproduced from Family Economics Review, June 1967), summed for the family as it was at the time of the interview.

INDIVIDUAL FOOD STANDARD (LOW COST)

\$3.90	for	both males and females under age 4
\$4.60	for	both males and females age 4-6
\$5.50	for	both males and females age 7-9
\$6.40	for	males age 10-12
\$6.30	for	females age 10-12
\$7.40	for	males age 13-15
\$6.90	for	females age 13-15
\$8.70	for	males age 16-20
\$7.20	for	females age 16-20
\$7.50	for	males age 21-35
\$6.50	for	females age 21-35
\$6.90	for	males age 36-55
\$6.30	for	females age 36-55
\$6.30	for	males age 56 and older
\$5.40	for	females age 56 and older

This same standard has been used in previous waves. Since the table is from a 1967 publication, values are in 1967 dollars. Adjustments for inflation, etc., are left to users.

The actual weekly food needs in dollars and cents are coded here.

C39. About how much did you make per hour at this?

The values for this variable represent dollars and cents per hour. If the amount was given as something other than an hourly rate, the same rules as those for V8383 were used. If Head had more than one extra job, the value here represents a weighted average hourly wage from all jobs.

Note that this variable is defined as having no decimal places.

V8671 "M37 RECORD RELIG PREF?HD"

M37. Now we would like to ask for your religious preference. This involves a right that is protected by the United States Constitution. You are under no obligation to answer these questions; and, if for any reason you decide you do not wish to answer them, we will accept your request and respect your decision. The information requested is important to us, and we hope you will decide to answer them. May we record your religious preference? This question was not asked of any Head until 1976 nor of new Heads in 1978. Please see note below for V8672. If the family has had the same Head since at least 1978, the value for this variable is zero.

V8672 "M38-39 RELIGIOUS PREF-HD"

NUM(1.0)

M38, M39. Is your religious preference Protestant, Catholic, or Jewish, or what? What denomination is that?

This question was asked of all Heads in 1970 and for the 1971 through 1977 interviews was asked of all new Heads. Values were brought forward from previous data each year for families with the same Heads. In 1978, however, the question was not asked. In 1979, when the question was reinserted in the questionnaire, values were not brought forward from 1977 for families with unchanged Heads since that time. Therefore, any cases with the same Head since 1978 must by necessity contain missing data (i.e., a value of zero). For those cases with the same Heads from 1977 through the present, please use 1977 religious preference, V5617.

V8725 "SAMP ERR COMP UNIT(SECU)"

Sampling Error Computation Unit (SECU)

This variable, identical to 1980 V7449 and 1981 V8101, was constructed to allow users to calculate the proper sampling error, or variance, values of regression statistics. Splitoffs since 1980 have received the same value as their main families. See the 1980 (Wave XIII) documentation volume, pp. 81-82, for a comprehensive explanation.

The values for this variable represent the SECU into which a sample unit is classified and take the form xxy. Values for the xx portion range from 01 to 32, whereas the value for the y portion is either 1 or 2.

V8734-V8739 provide the user with a means of linking data between panel families that share the household. Each family involved in such a living arrangement has nonzero values here that represent all of the other panel families in the household. There are three sets of these variables, as that was the maximum number of other such families sharing the household for any given case. Please see PSID User Guide, Chapter F, for a more detailed description.

Values for this variable in the range 0001-6742 represent the actual 1982 ID number of the first other family living with this one.

V8740 "CENSUS NEEDS STANDARD-1981"

NUM(5.0)

Annual Needs Standard for the 1981 Family--CENSUS VERSION

This poverty threshold was taken from Census Bureau's website, http://www.census.gov/hhes/www/poverty/threshld/index.html. We have used the table entitled 'Poverty thresholds by Size of Family and Number of Children'

The threshold values are based on family size, the number of persons in the family under age 18, and the age of the householder. Due to some of the limitations of our extant files, we were unable to generate the number of months for those individuals who moved out of multiple families in the same wave. Otherwise the calculation of needs is similar to that described in Section I, Part 5, of guide to the 1993 PSID data, 93GUIDE.PDF.
